## Port Douglas

Port Douglas, once a tiny fishing village, is now indisputably the tourism capital of the Far North due largely to its proximity to all the attractions of the Great Barrier Reef and Rainforest Coast, and its superb year-round climate.

Less than an hour's drive north of Cairns, Port Douglas sits at the end of a peninsula on a natural harbour that harks back to the town's earliest days as a busy sea port.

Port Douglas is the hub of the region's flourishing tourism industry courtesy of its proximity to two of Australia's largest drawcards - the majestic Wet Tropics rainforests of the Daintree and Cape Tribulation national parks, and the spectacular Great Barrier Reef, the largest coral reef system in the world stretching for more than 2,000 kilometres along the Queensland coast.

The North Queensland climate is typically tropical with distinct wet and dry seasons. The ideal time to visit the region is during the dry seasons, which runs from May to October. The dry season along with the low humidity and cool breeze makes it pleasurable for activities.

## Full Day Outer Great Barrier Reef Cruise

The Great Barrier Reef is a living phenomenon. The reef's coloured branches sit upon banks of limestone polyps, which have been built up slowly over thousands of years from the seabed. The colours of purple, pink, yellow, white and red are intermixed and made more startling by the spectacular shapes of the coral. Spread among these waving fields of soft coral is colourful anemones, shellfish, sea urchins and sea slugs. Brightly coloured tropical fish glide and dart through the coral gardens and the banks of the coral are separated by channels of water, from the delicate green of the shallows to the deepest blue.

For an experience of a lifetime, today a friendly crew on a non-exclusive chartered cruise will take you to a reef at the very edge of Australia's Continental Shelf, to an underwater world that is a dazzling kaleidoscope of colour and brilliance. Upon boarding you will be served morning tea, and once departed from the marina are taken to the pontoon at the Reef, a magnificent ribbon reef where you will experience first hand the magic that is the Great Barrier Reef.

You may swim, try snorkelling - all the equipment is on board - or drift through the coral in a Quicksilver semi-submersible. The pontoon is shaded from the sun with tables and chairs. An underwater observatory is located on the pontoon. A delicious smorgasbord lunch is included.
